Notes:

Netsmartz provided VPN and RDP is only to connect with Netsmartz local network and you cannot further connect with additional VPN connections while connected with Netsmartz VPN and RDP account. Use client provide VPN to directly take control of the client network as per your project scope of work declaration with end client.

VPN connectivity with JIO mobile or dongle does not always work, and the connection may not be stable over the network

Declaration:

I _____ hereby declare and agree that the Use of the VPN account is only for the business of Netsmartz and shall not be used for any unlawful or prohibited purpose and will not be shared with anyone.
